SAINT CLARE’S SCHOOL
TULLY

STEWARDSHIP

Values
Sustainability, Equality, Respect, Self – Discipline, Care, Understanding, Concern, Thoughtfulness, Justice, Compassion, Support Life

Policy
St. Clare’s School recognises that we are all stewards of God’s creations and we have a responsibility to sustain them now and for future generations.

Guidelines
St. Clare’s will in developing plans:

Children will understand their place as stewards of the planet

The school community is responsible for the management and resources of the school grounds (including creek)

World Resources are meant for all even though some are limited and non-renewable

The distribution use of resources needs to be equal and just as we are challenged by Jesus to make a conscious option to manage our resources (locally, nationally and globally)

Environmental responsibility begins with every individual in every home and has a flow on effect on all in the community we hope to work in conjunction with the wider community

We will educate the children about the ripple effect using this model as a framework for successful stewardship

To act justly, with respect, care and sustainability will ensure that we are successful stewards for generations to come
